

WOCOTEC 3000 SERIES RUST PREVENTIVES

WOCOTEC 3000 series of products are blended with mineral spirits and is straw to amber in color. Wocotec 3000 series products are outstanding water displacing, non-staining rust preventives which will not emulsify even in the presence of alkali, and will quickly separate water displaced from metal surfaces after machining operations or alkali cleaning. The protective film left on the metal after evaporation of the solvent is ultra-thin, non-staining highly protective and dry. These products can be removed with mineral spirits, kerosene or alkali wash.
