

WOCOTEC 3062

GENERAL DESCRIPTION

Wocotec 3062 is a water displacing indoor rust preventive. It will quickly separate water displaced from metal surfaces after machining operations or alkali cleaning. The highly protective film left on the metal after evaporation of the solvent is ultra-thin and non-staining. This product is unusually low in odor which enhances the work environment. Wocotec 3062 can be removed with mineral spirits, kerosene or alkali wash.
